

Data40 was founded in 2019 by a team of highly involved specialists from multiple industries. With more than 15 years of experience at the peak of technologies and methodologies in research, analytics and marketing we are committed to share our knowledge within the industries that we love and know best.

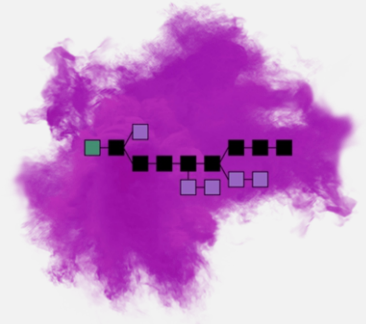

**VIDEO GAMES &
GAME DEVELOPMENT**

**GAMBLING,
BETTING & CASINOS**

**VENTURE &
MONEY INVESTMENT**

**BLOCKCHAIN &
CRYPTOCURRENCIES**

Data40 is committed to set the next generation standard in big data gathering and analysis. Yes, we do all the things our competitors do, such as:

- READY-TO-BUY SOLUTIONS

Complex already made solutions always available for purchase and download

- PERIODIC SOLUTIONS

All kinds of regularly updated solutions with access to the most recent information

- PRIVATE / CUSTOM SOLUTIONS

Tell us what you need and we will help you out

- PER-HOUR OUTSTAFF HIRING

We have all kinds of specialists; do not hesitate to contact us to learn about available options

However we share a different approach. While our competitors sell confusing tables and data sets we provide you with clear answers.

A clear answer is the reason you need a research in the first place, isn't it?

We surely do have all the big data to inspect and rely on, however we see it only as a tool to give you what you really need. You will be able to make any crucial decision basing on the answer received from us.

To give you this answer we start with asking ourselves the right questions: what is it you actually need and how it can be useful to you.

We believe this challenge requires creativeness.

Our company constantly develops the best methodologies and educates the specialists to make them high-level professionals.

This is how we know the quality of our service is impeccable.

We never rely on a single specialist's expertise and work on every project as a team of equals where every team member is as good as others. This is crucial for a company that provides knowledge based solutions.
