Business Outlook⁸

“We continue to pursue other potential development projects that may require us to invest significant amounts of capital as well as capital spend required for identified growth projects. We expect to spend an additional \$100 million in 2024 on such growth projects, which includes the completion of the new land-based facility at Treasure Chest, which opened in June 2024, the expansion of meeting and convention space at Ameristar St. Charles and the start of construction of a new casino, Cadence Crossing. This new 10,000 square foot casino will be built on the site that currently holds our Jokers Wild Casino and will feature 450 slots and several dining options.”

“We regularly investigate and pursue additional expansion opportunities in markets where casino gaming, including online gaming, is currently permitted. We also pursue expansion opportunities in jurisdictions where casino and online gaming is not currently permitted in order to be prepared to develop projects upon approval of casino or online gaming. Such expansions will be affected and determined by several key factors, which may include the following:

- the outcome or anticipated outcome of gaming license selection processes;
- the approval of gaming in jurisdictions where we have been active but where casino or online gaming is not currently permitted;
- identification of additional suitable investment opportunities in current gaming jurisdictions; and
- availability of acceptable financing.

Additional projects may require us to make substantial investments or may cause us to incur substantial costs related to the investigation and pursuit of such opportunities, which we may fund through cash on hand, cash flow from operations or availability under our Credit Facility. To the extent such sources of funds are not sufficient, we may also seek to raise additional funds through public or private equity or debt financings or from other sources to the extent such financing is available.”
